

THIN STONE VENEER

THE FINEST THIN STONE VENEER IN THE INDUSTRY

PHANEUF STONE

New England Blend | Ledgerstone

Phaneuf Stone proudly produces the finest 100% natural thin stone veneer products available; certain to add grace, beauty, elegance and value to your home or business.

Hand-selected from our quarry resources for exceptional color and texture, our thin stone veneer is guaranteed to deliver the exceptional quality you demand.

Whether you are building a new stone home or remodeling your home with a new stone fireplace, stone siding or wall, our thin stone veneer will deliver the natural stone facing

you desire. With our vast array of products, varying in color, texture, geology and cut, set your imagination free — turn that brick fireplace to stone, accent your vinyl siding or stucco, build a stone barbecue on your patio. Nearly anything is possible with thin stone's easy installation and foundation requirements; it installs over wood, concrete, brick or block.

OUR MOST POPULAR SHADES OF THIN STONE VENEER

ALL NATURAL THIN STONE VENEER

All of our stones are hand-picked and harvested from local quarries and farms all around New England. With either manufactured stone profiles or natural stone thin cut profiles, thin stone veneer creates a striking surface to siding, pillars, chimneys, fireplaces, accent walls, outdoor kitchens, and foundations. It is durable, requires little maintenance, and stands the test of time. Thin stone veneer is durable enough to withstand hard winters, while being very lightweight.

Every thin stone veneer product we offer is available in building veneer.

THIN STONE VENEER CUTS

The beauty of full-thickness stone without the additional weight.

Every thin stone veneer product we offer is available in building veneer.

ASHLAR

Ashlar is rectangular in shape, with a larger range of stone heights. The ashlar profile is also hand split to reveal the natural stone's unique grain and texture.

- Finish: Split Face
- Height: 3" - 7"
- Length: 4" - 14"
- Thickness: 1 1/2" +/-

LEDGESTONE

Ledgestone consists of thin rectangular shapes, typically used in a "dry stack" application for a clean contemporary look.

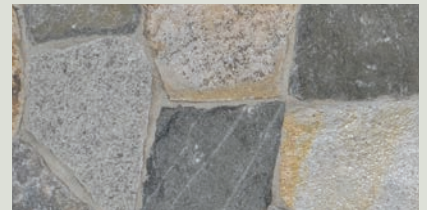

- Finish: Split Face
- Height: 1" - 4"
- Thickness: 1 1/2" +/-
- Length: 4" - 12"

MOSAIC

The mosaic profile is a classic look, made up of irregular shapes and sizes to give your project that "Old World" look and feel.

- Finish: Natural Face
- Height: 6" - 14"
- Length: 4" - 14"
- Thickness: 1 1/2" +/-

ROUND

Round sawn thin veneer is some of the most sought after stone in the world. Our round fieldstone is hand-picked and harvested from local farms and stonewalls across New England.

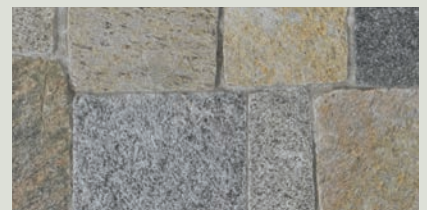

- Finish: Natural Face
- Diameter: 1 1/2" +/-
- Size Range: 8" - 16"

SQUARE + RECTANGULAR

This profile is just as it sounds, made up of square & rectangular shape pieces in a variety of sizes and has a natural stone face.

- Finish: Natural Face
- Height: 6" - 14"
- Length: 6" - 14"
- Thickness: 1 1/2" +/-

CORNERS

Our Corners are cut to 90 degrees and are available in all shapes and colors. Corners are sold by linear foot and are available in full and a half crate.

CRATES

Our crates contain 168 sq. feet of thin stone veneer flats and are sold in full crates. All crates are carefully packed, labeled, weighed and shipped to authorized dealers.

- Flats: 168 sf
- Layers: 14 (12 sf / layer)
- Corners: 100 lf
- Half Corners: 50 lf

GROUTING OPTIONS

Depending on which aesthetic you are going for on your project, we offer three different ways to handle the joints between your stone.

DRY LAID

No grout between stone

STANDARD

Grout joints 3/8" to 3/4"

WIDE

Grout joints 1" +

BUILDING STONE VENEER

Building stone veneer (full bed veneer) is the foundation of the stone veneer industry. These stones are chosen for their durability, attractiveness and economy and have a thickness varying between 3" to 5".

Every thin stone veneer product we offer is available in building veneer.

- Approximate thickness 3" ± to 5" ±
- Palletized and sold by the ton

CUSTOM STONE FABRICATION

Phaneuf Stone has the ability to custom fabricate most special stone requirements. With our exceptional stone knowledge, skilled fabrication team, and advanced stone cutting equipment, we can turn your ideas into a beautifully finished product.
